

**Bulloo
Shire**

TENDER No. 2024-2025-204

**Flood Damaged Roads Restoration
Durham Zone, Thargomindah West Zone and Thargomindah East Zone**

ADDENDUM No. 2

Issued 18 November 2024

**Flood Damaged Roads Restoration**

Tenderers are advised of the following change(s) to the advertised tender documents and/or agreed answers to questions asked by prospective tenderers.

Question

Will coordinates and recommended material extraction method (ie screening or crushing) be provided for each of the specified borrow pits in schedule K1?

Answer

Gravel pit locations are detailed on the maps in Volume 3 Specification Appendix A. Gravel pits are also identified via road chainage. Coordinates for the gravel pits will not be provided.

The requirements associated with the procurement of granular pavement material and access to gravel pits is detailed in Volume 3 Clause 3.8 Granular Pavement Material Sources and Access.

Question

In Schedule K1, it has been noted some of the treatments have two units specified. For example Site ID 40_5 is a HFG50 with m3 as the units, but 40_20 is a HFG50 with m as the units. Can it be clarified what units are to be used for each treatment and the quantities corrected to match?

Answer

Schedule K1 is deliberately designed and presented in the manner in which it is. All treatment types must reflect the approved works and requirements of the Queensland Reconstruction Authority (QRA). The QRA guidelines contained in Volume 3 Specification Appendix B, specify the units of measure for each treatment type. The tender pricing schedule reflects these requirements in Column L – Unit.

Columns P, Q and R reflect works where imported granular pavement material is required to complete the specified works. The quantity of material required and nominated gravel pit source are detailed in these columns.

Site 40_5 had an error in the quantity and units provided in Column L which did not reflect QRA requirements. This has been corrected and a new version of Schedule K1 is provided with this Addenda. The current version of Schedule K1 as at the date of this addenda is Revision 3.
