\*

### **Road Closure Water Heights**

Where water crosses a road, Council recommends that you do not drive through a flooded road due to uncertainty below the water surface, there may be no road at all under the water.

Flooding can wash away the entire road surface.

To minimize the impact of the flood, under certain conditions such as low flow velocity, evidence of low structural risk etc. the following heights will regulate the closure of the road for use by the following classes of vehicles:-

Small and standard vehicles:	Max 0.3m
4WD Vehicles and Light Trucks	Max 0.4m
Heavy Vehicles (Semi Trailers)	Max 0.6m
Council Flood Truck	Max 1.0m
Extreme Emergency	Max 1.2m

The road will be closed to all vehicles when the water height rises above 1.2m

Unsealed roads are to be closed for a minimum of 24 hours after 15mm of rain has fallen in the area of the road. Council staff will liaise with property owners to clarify how much rain has fallen.
